

DO THE RIGHT THING - No Landfill

## Synopsis

Flick and Face-It are acutely aware of the looming environmental disaster posed by the use of disposable sanitising wipes, disposable face masks, disposable gloves & disposable sanitising bottles. These disposable products are already turning up in our oceans and streams and should not be sent to landfill. These disposable products, **do not break down in landfill and cannot be recycled.** To combat this global challenge Flick has partnered with Face-It to create a unique solution.

# Why use Face-it?

- Tens of Trillions of disposable sanitising wipes
- 1.6 trillion disposable face masks\* will be used globally over the next 12 months\*.
- 720 Billion disposable gloves\* will be used globally over the next 12 months\*.
- 350 Billion disposable hand sanitisers will be used over the next 12 months.
- The majority of these products will go to landfill (estimated up to 80%).
- Companies, corporations, governments and individuals have a social responsibility to DO THE RIGHT THING!
- Face-it is a very unique solution to this looming catastrophe.
- Face-it units will be incinerated at a medical grade facility.
- Face-it solution is cost effective.
- Face-it allows the user to act with social responsibility.
- Face-it is an Australian solution, made in Australia
